

**Summertubing is great fun and a safe form of activity suitable for people of all ages, but its use requires compliance with the following safety rules:**

1. The slide may be used by persons over 6 years of age, over 120 cm tall and weighing up to 80 kg.
2. The slide may only be used when staff are on the platform.
3. The instructions and announcements of the staff must be followed.
4. One person may slide down in one pontoon.
5. Before the descent, the tow rope must be placed inside the pontoon.
6. Sit down inside the pontoon, keeping your legs out, crossed.
7. For better stability, hold on to the handles.
8. If several pontoons are sliding down the slide at the same time, they must ride one after the other, without gaps between them, forming one line.
9. After the descent, leave the alighting area immediately.
10. Persons who do not follow the regulations will not be allowed to use the slide.
11. The track is out of use during rain and when it is wet.

### **ATTENTION, IT IS PROHIBITED:**

1. Using the pontoons outside the designated descent track.
2. Taking photos and recording videos with a phone/camera during the descent.
3. Descent in a prone position and/or face down.
4. Sitting on the edge of the pontoon during the descent.
5. Descent of more than one person in one pontoon.
6. Using the descent line by people who are over 2 m tall.
7. Using the descent line by people in poor health (e.g. diseases of the musculoskeletal system, etc.).
8. Using the attractions by people under the influence of alcohol and/or drugs.
9. Using the descent line by pregnant women.
10. Carrying large items (e.g. backpacks, etc.)
11. Riding with loose long hair. If you have long hair, tie it up before the ride.
12. Wearing items of clothing such as scarves or similar during the descent, which could be pulled under the pontoon.
13. Smoking and drinking alcoholic beverages throughout the track and lift.

### **BY USING THE TRACK, YOU ACCEPT THE PROVISIONS OF THESE REGULATIONS**

Summertubing is a product designed and manufactured by Neveplast S.r.l., a leader in the production and introduction to the market of artificial plastic surfaces for ski slopes adapted for alpine and classic skiing, belt systems for riding uphill enabling entry and exit, and summer snowtubing tracks.
